

ICI Indelac Controls, Inc.

May 11, 2005

To whom it may concern,

The Federal Trade Commission (FTC) is charged with preventing deception and unfairness in the marketplace. The FTC Act gives the Commission the power to bring law enforcement actions against false or misleading claims that a product is of U.S. origin. Traditionally, the Commission has required that a product advertised as Made in USA be "all or virtually all" made in the U.S. After a comprehensive review of Made in USA and other U.S. origin claims in product advertising and labeling, the Commission announced in December 1997 that it would retain the "all or virtually all" standard. The Commission also issued an Enforcement Policy Statement on U.S. Origin Claims to provide guidance to marketers who want to make an unqualified Made in USA claim under the "all or virtually all" standard and those who want to make a qualified Made in USA claim.

"All or virtually all" means that all significant parts and processing that go into the product must be of U.S. origin. That is, the product should contain no — or negligible — foreign content.

This statement is to certifying that Indelac Controls, Inc. electric actuators meet the FTC guide lines for Made in USA claim.

Thank you for your interest in ICI electric actuators, if you have any questions or we can be of further assistance please call us at 1-800-662-9424.

Sincerely,

James L. Robinson
President, ICI
